

CF-2120 襯衫袖口壓燙機
Cuff Pressing and Ironing Machinery

特點 FEATURES

本機是具有壓力無級可調的重加壓機械，加壓均勻，同時可自設定加壓時間，可調節上模的溫度和壓燙時間，以適合各種不同面料整燙要求。加壓模型，穩定性佳，加熱自動恒溫裝置，可根據布料選擇最佳溫度。設計獨特，外觀新穎，操作容易，合理的設計，使壓燙領型定型更富有立體感。

High pressure mechanism with pressure level adjustable, pressing time adjustable at will, and temperature and pressing time on the upper mould adjustable, suitable for different cloth materials.

Super stability. Temperature automatically fixed. Most appropriate temperature can be set for different cloth material. Unique and reasonable design and pleasing configuration, easy to operate, ensuring optimum pressing result.
