

CF-2188 轉臺雙頭粘合壓平機
Table double adhesive pressing machine

特點 FEATURES

- 1、本機使用回轉式雙操作台工作方式，有效提高工作效率；
- 2、配置數控溫控器、時間控制器以及計數器，方便調節統計；
- 3、超強力吸風定型裝置，使布料定型效果倍增，並設有5分鐘；
- 4、超大氣缸可滿足大部分面料定型要求，並有配置氣液轉換系統（擁有更強大壓力）之機型供客戶選擇，有效解決不同客戶的需求。

1. This machine uses Rotary dual console working way, effectively improve the working efficiency
2. Equipped with digital temperature controller, time controller, counters, convenient adjustment and statistics
3. Ultra powerful air suction calibration unit, Fabric shaping effect multiplier. And the 5-minute does not use automatic stop function. Energy saving effect well
4. Oversized cylinder can meet the most fabric shaping requirements, and configuration of gas-liquid transfer system (own more powerful pressure), provide customer to choose, effectively solving the needs of different customers
