

CF-8184B 自動風壓蒸汽折袋機
Automatic Pneumatic Steam Pocket Creasing Machine

特點 FEATURES

本機主要適用於針織、梳織、棉料、化織等衣服制品的口袋焗熨，採用PLC觸摸屏人機對話界面操作，使用者無須進行複雜培訓即可輕易上手，降低了企業生產成本。本機設有各種操作功能，可進行多種袋模的選擇，主要有方角、圓角、三角、六角等。可根據不同布料，對加壓時間、壓力以及摺袋方式進行調整。可對生產數量進行統計，實現高效智能生產模式。另有小型蒸汽鍋爐供選購，使機器安裝更為方便，焗熨效果更佳。

The machine is mainly suitable for the pocket ironing of such clothing products as knitting, comb weaves, cotton material, and chemical textile, adopting PLC touch screen with human-machine dialogue interface, so the users need not to carry on complex training before operation, which reduces the production cost of the company. The machine has a variety of operating functions, with the option of the multiple bag types, which mainly includes the square, round, triangle and hexagon, etc. Time for pressurization, pressure and folding ways of bag can be adjusted according to different fabrics. And the statistics of the number of production can be carried out to achieve high efficiency intelligent production mode. Small steam boiler (optional), installation easier and more, get more perfect ironing.
