

CF-622 筒式绷缝自动上腰机
Drum-Type Flat Seaming Automatic Waistband Sewing Machine

特點 FEATURES

本機使用可編程PLC控制程序，使用中嘴綳縫機，實現自動撐開鬆緊褲腰，自動對邊，一人可操作2-3臺機器，減少了人工操作，生產效率是傳統工藝的2-3倍。提高了產品的標準性，有效提升產品品質。可視化人機界面，實現人機對話監控。存儲亞洲標準規格尺寸（S、M、L、XL、XXL、XXXL）各6種，操作更便捷。

This machine adopts PLC control with middle nozzle flat seaming machine to automatically open the elastic waistband and features automatic alignment. One operator can operate 2-3 machines simultaneously, which can reduce manual operation, and the production efficiency is 2-3 times higher than the traditional technique, additionally, the standard property of the product is also improved, and the product quality is also improved. It achieves man-machine monitor with visual man-machine interface. It is saved with six kinds of Asian standard size (S, M, L, XL, XXL, XXXL) and features convenient operation.

自动纠偏装置 Automatic Correction Device

自动张紧装置 Automatic Tension Device

縫制工藝	鬆緊帶寬度	最高縫制速度	使用機針	電源	氣壓
Sewing Technique	Width of Elastic	Highest Sewing Speed	Applicable Needles	Power Supply	Air Pressure
褲腰上鬆緊帶	15-40mm	3500針/分	UYX128GAS #10	220V	0.5Mpa
