

CF-126P 全自動橡筋切帶機 Automatic Elastic Cutting Machine

特點 FEATURES

CF-126P全自動切橡筋帶機是采用履帶式傳送的新型切割機，能滿足客戶較高的精度要求。集成PLC控制介面操作簡易，其適用於橡筋帶、紡織帶、鬆緊帶等材料的切割，可切割長度為10至9999厘米。該機采用全自動收料裝置，使產品更易于包紮整理，其高速度，高精度的性能，是當前切割帶工序必備的專用設備。

As a new crawler-type cutting machine, CF-126P automatic elastic cutting machine can fully meet client's requirement for precision. Integrating PLC control interface that opens to easy operation, it is applicable for cutting of elastic cord, woven belt and elastic cord. It cuts from 10 to 9999cm. With automatic discharging device, it better packages products. The high efficiency and precision makes it a must for current cutting procedures.

獨特的履帶式送料
Unique crawler type feeding structure

獨有的自動收料裝置
Unique automatic collecting device
